Description of works

Contact

LLC «Rendgy Trostyanets»  
LLC «Martifer Solar UA»

**Detailed design, construction, installation and commissioning**

Photovoltaic Power Plant of LLC «Rendgy Trostyanets» on the territory of Hlybochok village council, Trostyanets district, Vinnytsia region. Second part of the construction. Peak power 2,5 MW.

24340, Ukraine,  
Vinnytsia region,  
Trostyanets district,  
Hlybochok village,  
Lenina St., 4-A

LLC «Rendgy Tomashpil»

**Detailed design, construction, installation and commissioning**

Reconstruction of 110/10 kV substation «Gnatkiv» to connect photovoltaic power plant LLC «Rendgy Tomashpil».

01033, Ukraine,  
Kyiv,  
Shota Rustavelli St.,  
39/41

PJSC «Vinnytsiaoblenenergo»

**Detailed design, construction, installation and commissioning**

Reconstruction of 110/35/10 kV substation «Hlybochok» v. Hlybochok to connect photovoltaic power plant LLC «Rendgy Trostianets».

21050, Ukraine,  
Vinnytsia,  
1 May St., 2.

LLC «Rendgy Bershad»

**Detailed design, construction, installation and commissioning**

Reconstruction of 110/35/10 kV substation «Chernyatka» to connect photovoltaic power plant LLC «Rendgy Bershad».

01033, Ukraine,  
Kyiv,  
Shota Rustavelli St.,  
39/41

LLC «Piskivka Glassware Factory»

**Detailed design, construction, installation and commissioning**

Construction of substation 110/10 kV «PGF», LLC «Piskivka Glassware Factory».

07820, Ukraine,  
Piskivka town,  
Zhovtneva St., 1

2012

LLC «Rendgy Trostianets»,  
LLC «Martifer Solar UA»

**Detailed design, construction, installation and commissioning**

Photovoltaic Power Plant of LLC «Rendgy Trostianets» v. Hlybochok, Trostianets district, Vinnytsia region. Peak power 1,37 MW.

24340, Ukraine,  
Vinnytsia region,  
Trostianets district,  
Hlybochok village,  
Lenina St., 4-A

LLC «Green Agro Service»

**Detailed design, construction, installation and commissioning**

Reconstruction of 110/35/10 kV substation «Porohy» to connect photovoltaic power plant LLC «Green Agro Service».

24512, Ukraine,  
Vinnytsia region,  
Yampil district,  
Porohy village,  
Lenina St., 50

LLC «Green Agro Service»,  
LLC «Martifer Solar UA»

**Detailed design, construction, installation and commissioning**

Photovoltaic Power Plant of LLC «Green Agro Service» on the territory of Porohy country council of Yampil district. Peak power 4,5 MW.

## 2011

|  |  |   |
|--|--|---|
| PJSC «Vinnytsia Confectionary Factory» | <p><b>Detailed design, construction, installation and commissioning</b></p> <p>Reconstruction of substation 10/0,4 kV PJSC «Vinnytsia Confectionery Factory» (4 x 2500 KVA) with the installation (replacement) of 5 switchgear cells 10 kV.</p> | 21001, Ukraine, Vinnytsia, Lypovetska St. |
|--|--|---|

|                      |  |  |
|----------------------|--|--|
| PJSC «Bershadmoloko» | <p><b>Detailed design, construction, installation and commissioning</b></p> <p>Reconstruction of substation 35/10 kV «MKK» PJSC «Bershadmoloko».</p> | 24405, Ukraine, Vinnytsia region, Bershad district, Floryne village, Komarova St., 147 |
|----------------------|--|--|

## 2010

|  |   |   |
|--|---|---|
| PJSC «Vinnytsia Confectionary Factory» | <p><b>Detailed design, construction, installation and commissioning</b></p> <p>Two 110 kV cable lines to connect the substation 110/10 kV «VKF» to the network 110 kV of Vinnytsia, with a length of 650 m and using cable with XLPE insulation section 240/95 mm 2 (Al).</p> | 21001, Ukraine, Vinnytsia, Lypovetska St. |
|--|---|---|

|  |   |
|--|---|
| PJSC «Vinnytsia Confectionary Factory» | <p><b>Detailed design, construction, installation and commissioning</b></p> <p>Reconstruction of electric power supply sources of Vinnytsia. Substitution of 10 protection panels of overhead transmission line 110 kV for microprocessors such as «Diamant» and a panel of emergency automation on 5 substations 110 kV.</p> |
|--|---|

|  |  |
|--|--|
| PJSC «Vinnytsia Confectionary Factory» | <p><b>Detailed design, construction, installation and commissioning</b></p> <p>Reconstruction of substation 110/10 kV «VZTA» in Vinnytsia (110-6, 2x63 MVA) – installation of sectioned sulfur hexafluoride [SF6] circuit breaker.</p> |
|--|--|

|  |  |
|--|--|
| PJSC «Vinnytsia Confectionary Factory» | <p><b>Feasibility study, detailed design, construction, installation and commissioning</b></p> <p>Construction of the new substation 110/10 kV «VKF» with transformers 2x25 MBA with outdoor switchgear 110 kV circuit type 110-2 and indoor switchgear 10 kV circuit type 10-1.</p> |
|--|--|

|  |   |
|--|---|
| PJSC «Vinnytsia Confectionary Factory» | <p><b>Detailed design, construction, installation and commissioning</b></p> <p>Two cable lines 10 kV between the 110/10 kV «VKF» and TS-78 6700 m long each, using a cable with XLPE insulation with section 500/50 mm<sup>2</sup> (Al), with a loop transposition of core screens.</p> |

# PROJECT DESIGN WORKS

Customer

2015

Description of works

Contact

**State Enterprise  
NPC «UKRENERGO»**

**Detailed design**

Substation 330 kV «Novoodeska». Reconstruction of system automation of power cut.

01032, Ukraine,  
Kyiv,  
Symona Petljury St.,  
25

**State Enterprise  
NPC «UKRENERGO»**

**Detailed design**

Substation 330 kV «Kahovska». Reconstruction of power system protection equipment of transmission line 330 kV «Zaporizka thermal power-station».

**State Enterprise  
NPC «UKRENERGO»**

**Detailed design**

Substation 330 kV «Kahovska». Reconstruction of power system protection equipment of transmission line 330 kV «Kryvorizka thermal power-station».

**State Enterprise  
NPC «UKRENERGO»**

**Detailed design**

Substation 330 kV «Usatove». Reconstruction of system automation of power cut.

**State Enterprise  
NPC «UKRENERGO»**

**Detailed design**

Substation 330 kV «Usatove». Reconstruction of frequency discharge automation.

**State Enterprise NPC  
«UKRENERGO» South-  
Western Electric Power  
Engineering System**

**Detailed design**

Technical retrofit of substation 330 kV «Shepetivka» outdoor switchgear 330 kV with the substitution of oil current transformers 330 kV to gas-insulated transformers.

21010, Ukraine,  
Vinnytsia,  
I. Boguna St., 5

**State Enterprise NPC  
«UKRENERGO» South-  
Western Electric Power  
Engineering System**

**Detailed design**

Technical retrofit of power system protection and automatic safety equipment of the line 330 kV «Vinnytska 750» – «Vinnytska 330» Humenne village Vinnytsia district Vinnytsia region – Luka-Meleshkivska village Vinnytsia district Vinnytsia region, Pryvokzalna St.

**State Enterprise NPC  
«UKRENERGO» South-  
Western Electric Power  
Engineering System**

**Detailed design**

Substation 330 kV «Vinnytska». Technical retrofit of high-frequency channel with the installation of instruction's transmission equipment of automatic safety control. Organization of high-frequency canal of the transmission line 110 kV «Tulchyn».

2015

Description of works

Contact

**PJSC «Dniester Pumped Storage Power Station»**

**Design works**

Construction of outdoor switchgear 110 kV of the Dniester Hydroelectric Power Station-2, PJSC «Dniester Pumped Storage Power Station», situated in the village of Nagoryany, Mohyliv-Podilskyi district Vinnytsia region.

60236, Ukraine,  
Novodnistrovsk,  
Chernivtsi region

**PJSC «Dniester Pumped Storage Power Station»**

**Design works**

Construction of the 110 kV transmission line runs and reconstruction of 35 kV transmission line runs to the Dniester Hydroelectric Power Station-2 of PJSC «Dniester Pumped Storage Power Station», situated in the village of Nagoryany, Mohyliv-Podilskyi district Vinnytsia region.

**LLC «Vinnytsia Poultry Farm»**

**Detailed design**

Outdoor power supply by cable lines 10 kV of slaughter department of broiler chickens slaughter complex «Vinnytsia Broiler» from switchgear 10 kV of the substation 110/35/10 kV «Zaozerna» to indoor switchgear-1,2 10 kV (second part).

24320, Ukraine,  
Ladyzhyn town,  
Svoboda St., 141

**State Enterprise NPC «UKRENERGO»**

**Feasibility study**

Selection of the construction variant of power line 330 kV «Ternopil-Chernivtsi» (separate stages, calculation of electric conditions, development of the decisions at power system protection, telemechanics, computer-aided control system of technological process).

01032, Ukraine,  
Kyiv,  
Symona Petljury St.,  
25

**LLC «Edem-F»**

**Detailed design**

Reconstruction of power system protection equipment of the transmission line 110 kV «Synkiv-Vodozabir».

48663, Ukraine,  
Synkiv village,  
Central St., 2,  
Zalishchyky district,  
Ternopil region

2014

**PJSC «Kyivoblenergo»**

**Detailed design**

Reconstruction of substation 110/10 kV «N. Petrivtsi», Vyshgorod district, PJSC «Kyivoblenergo».

04136, Ukraine,  
Kyiv,  
Stetsenka St., 1-A

**LLC «Networks and Systems»**

**Feasibility study**

Development of electric mains of Chernivtsi region for the realization of the project of international exchange of electricity between Ukraine and Republic of Romania.

04107, Ukraine,  
Kyiv,  
Baggovutivska St.,  
17-21

**LLC «Production and Trade Company «Ligena»**

**Feasibility study**

Feasibility study of the scheme of power distribution of wind power plant of 30 megawatt power, which is located outside of population center, on the territory of Dalnyk village council Ovidiopol region Odessa district, to electric mains of PJSC «EC «Odessaoblenergo».

08300, Ukraine,  
Boryspil,  
Gorky St., 53

**State Enterprise NPC «UKRENERGO»  
«Southwestern Electric Power System»**

**Detailed design**

Substation 330 kV «Ternopilska» - L-110 «Buchach» («ZBK»), «Zboriv» («Ozerna»). Technical re-equipping of signal transmission gears of high-frequency distant tripping 118 and 370 kilocycle type with the substitution for gears of automatic channel equipment-16 (32) type.

21010, Ukraine,  
Vinnytsia,  
I. Boguna St., 5

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Detailed design**

Substation 330 kV «Chernivetska». Transmission line-330 kV «Ivano-Frankivsk». Substitution of power system protection and safety control signal transmission gears of automatic safety control channel equipment type for automatic channel equipment- (16) 32 type.

21010, Ukraine,  
Vinnytsia,  
I. Boguna St., 5

**State Enterprise NPC  
«UKRENERGO»**

**Design works**

Modernization of power system protection equipment on the substations 330 kV «Artsyz» and 330 kV «Tryhaty» of South Electric Power System.

01032, Ukraine,  
Kyiv,  
Symona Petljury St.,  
25

**LLC «Malvy»**

**Feasibility study**

Connection to electric mains 110 kV Dnister hydroelectric power station-2, PJSC «Dniester Pumped Storage Power Station»

79066, Ukraine,  
Lviv,  
Zubrivska St., 34

**LLC «Rendgy Trostyanets»**

**Design works**

Reconstruction of protection devices of 110 kV transmission line «Sumivka» at substation 110 kV «Bershad».

01033, Ukraine,  
Kyiv,  
Shota Rustavelli St.,  
39/41

**LLC «Rendgy Bershad»**

**Design works**

Reconstruction of protection devices of 110 kV transmission line «Chernyatka» at substation 110 kV «Bershad».

01033, Ukraine,  
Kyiv,  
Shota Rustavelli St.,  
39/41

**LLC «Rendgy Sarata»**

**Design works**

Construction of photovoltaic power plant «Rendgy Sarata» of power 8000 kW on the territory of Shargorod district Vinnytsia region.

01033, Ukraine,  
Kyiv,  
Shota Rustavelli St.,  
39/41

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Design works**

Substation 750 kV «Vinnytska». Reconstruction design of Indoor Switchgear-330 kV with replacement of circuit breakers on transformer station 330 kV in cells «B-20», «B-21», «B-22».

21010, Ukraine,  
Vinnytsia,  
I. Boguna St., 5

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Design works**

Completion of command transfer gear replacement of power system protection and safety control ANKA-ABPA type transmission line-330 kV Khmelnytskyi Nuclear Power Plant on substation 330 kV «Shepetivka» for microprocessor-based gears AKA-16 type.

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Design works**

Reconstruction of own needs gears on substation-750 kV «Vinnytska» with replacement of input and sectional automatic circuit breaker 0,4 kV Complex Transformer Substation (CTS)-1, CTS-2, CTS-3, CTS-4 ABM type for modern circuit breakers.

Customer

2013

Description of works

Contact

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Design works**

Re-calculation of estimate documentation in the design 31/10 of substation 330 kV «Khmelnytska». Reconstruction of open switchgear 110 kV.

21010, Ukraine,  
Vinnytsia,  
I. Boguna St., 5

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Design works**

Re-calculation of estimate documentation in the design 14/12 substation 330 kV «Vinnytska». Reconstruction of indoor switchgear 330 kV.

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Design works**

Reconstruction of electric illumination mains of substation 330 kV «Ternopil» with installation of voltage regulators 0,4 kV of illumination mains.

**LLC «Energy Stream»**

**Feasibility study**

Connection of photovoltaic power plant of total power 60 megawatt in Kamianets-Podilskyi district Khmelnytskyi region.

03127, Ukraine,  
Kyiv,  
40-years of October  
avenue, 100/2

2012

**PJSC «Vinnytsiaoblenenergo»**

**Detailed design**

Reconstruction of substation 110/35/10 kV «Zhmerynka» (two-stage design: project and working documents).

21050, Ukraine,  
Vinnytsia,  
1 May St., 2

**PJSC «Vinnytsiaoblenenergo»**

**Detailed design**

Reconstruction of substation 110/35/10 kV «Signal» (two-stage design: project and working documents).

**State Enterprise  
NPC «UKRENERGO»  
«Southwestern Electric  
Power System»**

**Detailed design**

Reconstruction of substation 330 kV «Khmelnytska». Modernization project to replace autotransformer AT-2.

21010, Ukraine,  
Vinnytsia,  
I. Boguna St., 5

**PJSC «Vinnytsiaoblenenergo»**

**Detailed design**

Overhead transmission line 110 kV «Vinnytska» 750 – «Vuzlova»: Feasibility study for the construction of 110 kV transmission line, from substation 750 kV «Vinnytska» to substation 110 kV «Vuzlova».

21050, Ukraine,  
Vinnytsia,  
1 May St., 2

**«Ukrenergomerezhproekt»  
DPVNDI Lviv branch**

**Detailed design**

Correction of the design «Substation 330/110/35 kV «Bar». Reconstruction».

79034, Ukraine,  
Lviv,  
Heroiv Krut St., 1A

## INFORMATION ABOUT THE COMPANY

LLC «Podilskiy Energoconsulting» is a recognized organization on the market of electric power engineering in Ukraine. The main sphere of activity of LLC “Podilskiy Energoconsulting” is the accomplishment of works in systemically important high voltage networks and distributive networks of medium and low voltage. The spheres of realization of company's works are:

- outdoor, indoor and complex switchgears of all voltage types: from 10 kV to 750 kV, constructed on the base of gas-insulated, vacuum and oil equipment with the usage of traditional methods of non-stiff bus bar equipment grouping as well as on the base of modern compact planning decisions based on stiff bus bar;
- high voltage transmission lines of all voltage types: from 10 kV to 750 kV;
- high voltage cable lines from 10 kV to 110 kV with the usage of cable with the insulation of vulcanized polyethylene;
- power static electric machines such as: transformers, reactors, compensate gears and others;
- automation, operation, telemechanics, power system protection and safety control of any complexity, founded on microprocessor, semi-conductor and electromechanical base;
- accessory complexes: cabling, the systems of collection and removal of oil, lightning protection, grounding, lighting, transportation and arrangement of the territories of substations;
- distributive power networks of low voltage, including the usage of complete insulated power lines.

In the listed spheres the organization accomplishes all types of works:

- development of design-estimate documentation of any complexity and phase, including feasibility studies and working documentation, «shovel ready» — with the getting of technical accounting of electricity transmission and other organizations, agreement in all needed authorities, undergo of state examination and performance of functions of Customer Service;
- making sets and supply of all needed electrotechnical equipment and materials;
- construction and installation works;
- all commissioning works, including works in the part of power system protection and safety control with the giving of all necessary executive and operation documentation;
- providing the stuff with training in running of new and reconstructed objects with new types of equipment.

Work experience on power engineering market of Ukraine gives our company possibility to perform effective solutions

of not only technical but also organizational and licensing issues. Implementation of «customer service» works allows us to solve organizational and licensing issues on the stage of accomplishment and commissioning works in short terms with minimal participation of the customer, that greatly optimizes the term of commissioning of the object.

Our strategic partners in power engineering are the best world producers of the equipment, in particular ALSTOM, ABB. Long time cooperation with the suppliers of the equipment («Zaporozhtransformator» PJSC (ZTR), ABB Ukraine, Siemens, Alstom, CJSC «ZETO», Electrotechnical company «Eltechcom», LLC «ABM Amper», Electrotechnical company «Eknis-Ukraine» and others) gives a customer wide range of solutions` choice by the criteria quality/cost and effective control of terms and quality of equipment supplies.
